

**Pinklets Really Do  
Correct Constipation**

There are few persons who do not suffer more or less from constipation and because of the discomfort it causes and the ill-health that results from this condition everyone should know how to properly correct it.

Harsh purgatives, formerly much used, act violently and leave the constipation worse than before. Pinklets correct this unnatural and dangerous condition by gently assisting the sluggish bowels and torpid liver to regain their normal activity. Their action is gentle, but effective and thorough, and they do not cause a single gripe. Unlike strong purgatives, Pinklets do not upset the stomach nor irritate and over-stimulate the bowels. Because they have none of these evil effects, they can be taken with entire safety until the constipation is corrected. To simply regulate the bowels or to treat obstinate cases of constipation, Pinklets are the ideal laxative. They are safe for every member of the family to use. Any druggist can supply you at 25 cents per bottle. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for a Pinklet book which tells all about the cause, symptoms and treatment of constipation and sick headache.

**HOT TEA BREAKS  
A COLD—TRY THIS**

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburg Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.—Advt.

Japanese Warships Reach  
Scene of Devastation

THIRTY TAKEN  
FROM ISLAND

A Graphic Story Told by  
One of the Fugitives

Kagoshima, Japan, Jan. 16.—A pathetic scene was witnessed yesterday on the island of Sakura when a group of famished, terror-stricken people were rescued from amid steaming lava and heated boulders by a boat from a Japanese warship.

A cruiser squadron arrived here yesterday and launches were at once lowered, whose crews searched the island, the contour of which has been entirely altered since the bursting into eruption on Jan. 12 of the volcano of Sakurajima.

The sailors did not risk landing, but made a systematic scrutiny. All was desolation and no sign of human beings was seen until evening, when an officer in one of the launches noticed something being waved in the air at a short distance from the shore.

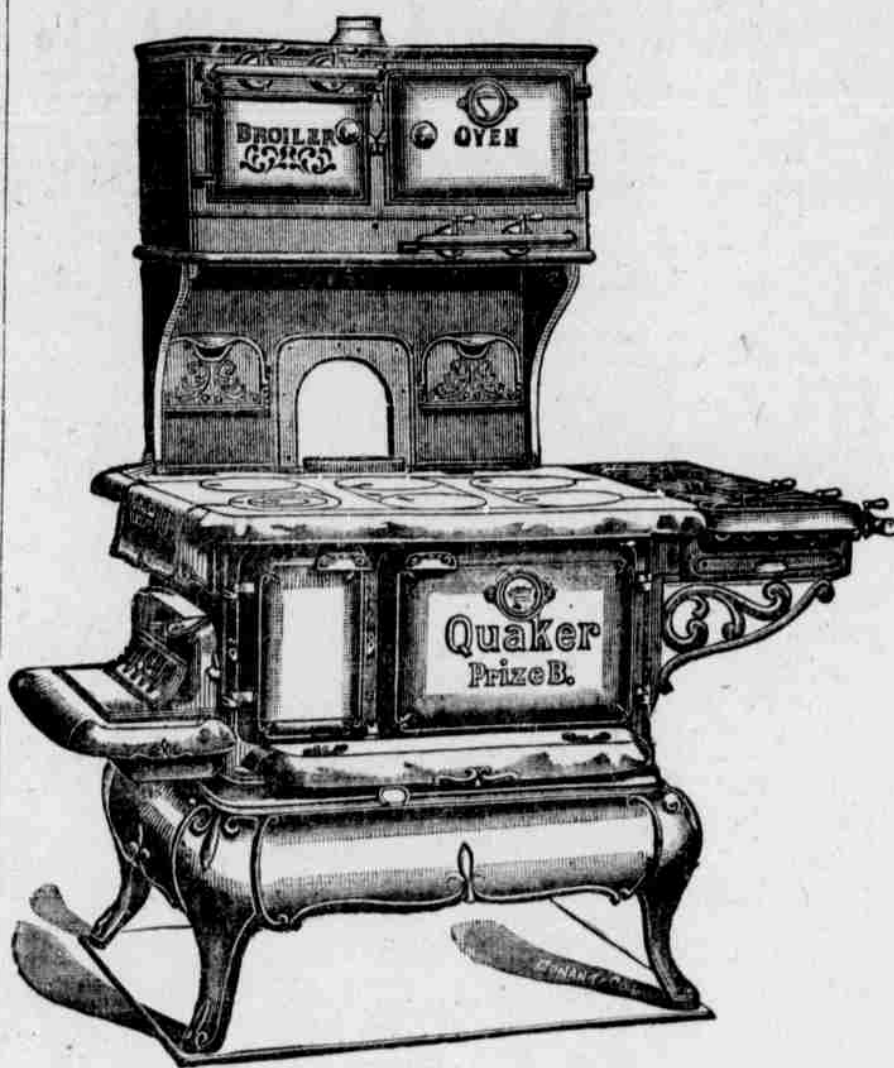

A detachment of men was landed, and after a hard struggle succeeded in making their way through soft, warm ashes breast high until they reached a great rock.

Cowering behind they found thirty-three people still living, but coated with thick dust and weakened by starvation and thirst. Among the rescued was a schoolmaster who had borne with him from his schoolhouse the portrait of the emperor; the village policeman, who had saved the records of the station house; and the postal clerk with a small bag of mail.

The rescued were taken on board a warship and provided with food and drink. They explained that they had hidden in a great cave near the shore until the rain of ashes was over and had then tried hour after hour to attract attention.

The vessels of the cruiser squadron brought with them a large stock of provisions, with which they are relieving the hunger of the people of Kagoshima, many of whom have returned only to find their houses destroyed and are consequently compelled to camp in the open spaces.

The general volcanic activity on the island of Kiusiu is gradually abating and the work of restoring railroad and telegraphic communication is being proceeded with. Damage in this city is immense, but no approximate estimate can yet be made of the loss of human life.

Financier Collapses When Called to Apartment Where Lankford Ended Life.

New York, Jan. 16.—Richard Lankford, 35 years old, vice president and secretary of the Southern railway, committed suicide yesterday in his bachelor apartment at the Osmund apartments, 1142 Pacific street, Brooklyn.

At noon yesterday Evans Lynch, a negro porter, smelling gas in the hallway, traced it to Lankford's apartment. He opened the door, and not finding Lankford, walked to the bathroom and discovered the railroad man lying nude on the floor with the gas jet turned on full force.

The police were notified, and after an investigation which disclosed nothing that might explain the situation, they telephoned to Miss Nellie Patterson, Lankford's fiancée, who lives with her brother, H. S. Patterson, at 814 Prospect place. She came instantly to the apartment, and when the news was broken to her she collapsed and is now under a doctor's care. She could throw no light on the action of Lankford.

Miss Patterson said she and Lankford were to be married next Saturday. They have been engaged a year and have been making preparations for their future home at 637 St. Mark's place, Brooklyn.

**DANDRUFF COVERED  
COAT COLLAR**

Scalp Itched and Burned Intensely.  
Hair Dry and Thin. Kept Falling Out. Cuticura Soap and Cuticura Ointment Entirely Cured.

54 Stanwood St., Dorchester, Mass.—  
"For the past few years my scalp was very much affected with dandruff. It would itch and burn and cause loss of sleep. I found pimples and many sores appearing on my scalp. The itching and burning of the scalp were so intense that I scratched and thereby caused the sores to appear. My hair would be dry and thin and would keep falling out gradually, mainly coming out from the top of my head. My coat collar would always be covered with dandruff and as it scaled off it could be seen plainly in my hair.

"I tried many remedies but without success. The trouble having lasted for about five years I finally purchased a box of Cuticura Soap and Ointment. The first application of Cuticura Soap and Ointment showed results. The itching stopped and the dandruff had begun to disappear. After washing my head with Cuticura Soap each night for two months and then applying the Cuticura Ointment after my hair was dried I was entirely cured." (Signed) Bernard Bremick, May 17, 1913.

For more than a generation Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale, and destroy sleep. Sold everywhere. Sample of each mailed free, with 25-cp. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

**POSSE TO END  
FARMER SIEGE**

Mayville, N. Y., Sheriff Gives Defiant Farmer Hours to Surrender  
—He Burns Furniture.

Mayville, N. Y., Jan. 16.—Edward Beardsley, the Summerdale farmer, who, barricaded in his house and heavily armed, successfully defied the efforts of Sheriff Anderson and a large posse of men to capture him, was given until yesterday afternoon to surrender peacefully. Sheriff Anderson, who, with 10 men, watched the house all Wednesday night, himself gave Beardsley the ultimatum.

Sheriff Anderson returned to Mayville and summoned every deputy in Chautauque county. He planned to surround the house and make a concerted attack.

J. W. Putnam, the overseer of the poor of Chautauque county, who was shot by Beardsley, is much improved, and his recovery is expected.

Beardsley chopped up his furniture in his barricaded home to keep his 10 children from freezing. Beardsley left the house during the night and tore off boards for fuel, but the deputies did not fire on him. They could hear him cutting up furniture and throwing it on the fire.

"What little food there was in the house must have been consumed long ago," said Sheriff Anderson. "I do not know what tortures those poor little children in there are suffering. It is one of the most deplorable incidents that ever occurred in this county."

**"MAIL ORDER WIDOW"

E. R. Kiger Said to Have Made \$1,000,000 in "Game"—Arrested Last Monday.

Chicago, Jan. 16.—Revelations of the schemes of E. R. Kiger, known as the "Mail Order Widow," whose alleged swindling operations are said to have netted him over \$1,000,000, were made yesterday by Inspectors A. E. Gerner and Adam Otto of the post office department upon their return from Edwardsville, Ill., where they arrested Kiger last Monday. Kiger has been held for the federal grand jury in bonds of \$10,000.

At the time of his arrest Kiger had in his possession fifty letters containing checks for sums ranging from \$50 to \$150 which he is said to have obtained from Canadians on representations that he was "Mrs. Elizabeth E. Walker," a widow of Edwardsville, who desired to dispose of an automobile which had been left her by the recent death of her husband.

The money was sent by the Canadians as a deposit on the machine.

**WALL OF WATER 15 FT.  
HIGH SWEEPS VALLEY**

Great Dam Bursts at Dobbin, W. Va.—People Flee to the Hills—No Report of Lives Lost.

Piedmont, W. Va., Jan. 16.—A wall of water fifteen feet high swept down the north branch of the Potomac dam of the West Virginia Pulp & Paper company at Dobbin, W. Va., before noon yesterday. According to reports received here inhabitants of the valley are fleeing to the hills and the greatest anxiety is felt for the safety of the entire district. No loss of life has been reported.

An operator employed by the Western Maryland railroad at Schell, W. Va., fifteen miles below the dam site, sent a message to the company's offices at Cumberland, Md., stating that the water was at least twenty feet high and was carrying everything before it. "I'm going to duck. Good by," the operator added. The dam is 1075 feet wide at the breast, backing the water up for three and a half miles and holding three billion gallons of water. The dam is ninety feet high on the outside, sixty-five feet on the inside and built on a concrete foundation sixty feet deep.

The dam was first noticed to be cracked by a watchman last night and this morning a large portion of the structure gave way. At 11:20 this forenoon a second and larger break occurred, notwithstanding efforts by employees to release the immense volume of water through the sluice ways. The second break made big gaps on both sides of the dam. The western Maryland railroad bridge at Schell, W. Va., is believed will cause the debris to clog there and hold the water in check for a time until the force of the flood carries it away. Piedmont, Western Port and Luke, Mr., known as the "Tri-towns" are threatened with destruction.

**NO PRICE FIXING BUREAU.**

Limited Powers for the Proposed Industrial Commission.

Washington, Jan. 16.—President Wilson will not permit the creation of a price establishing bureau under the proposed anti-trust legislation, neither will he favor granting the proposed industrial commission authority to say whether a trust is a "good" or "bad" one. This fact developed yesterday. The president has about completed his message, which he will deliver in person to a joint session of Congress, probably next Tuesday. It was said yesterday that the bill providing for the trade commission will by no means give that body anything like plenary powers.

**HAVE YOU HAD THE GRIP?**

There are certain disorders, such as the grip, that especially debilitate and make the body an easy prey for more dangerous diseases. Ask those who have had the grip regarding the present condition of their health and most of them will answer: "Since I had the grip I have never been well." They still have profuse perspiration, the persistent weakness of the limbs, the disordered digestion, shortness of breath and palpitation of the heart caused by the thin-blooded condition in which the grip almost always leaves its victim after the fever and influenza have subsided. They are furthermore, at the mercy of relapses and of complications, often very serious. In an attack of the grip there is a rapid thinning of the blood and not until the blood is built up again is complete health restored.

Dr. Williams' Pink Pills quickly make the blood rich and red, drive out the lingering germs from the system and transform dependent grip victims into cheerful, healthy men and women.

Try the pills for any form of debility caused by thin blood.
